We support HB # 2237

We believe that programs such as marketing and business cooperative education programs enrich students' education and increases students' opportunities for future success. These programs enhance the core curriculum and motivate students to achieve career goals through their workforce experiences. As teachers of these programs, we have witnessed many such successes first-hand. Offering these programs gives students the opportunity to learn on-the-job skills that carry them through college and future careers.

Thank you for your consideration in helping ALL students succeed.
