POPULATION	3,984,349	3,984,349	3,984,349	3,984,349	3,984,349	3,984,349	322,077

Gridline Interval = 1 Million

Notes: These are 10 Texas hospitals or health systems that are either hospital districts or that have a strong affiliation with a hospital district (Travis & Nueces). All are members of Teaching Hospitals of Texas. The County population estimates are for 2008 from the U.S. Census Bureau. The number of uninsured is derived from multiplying the percent uninsured from 2005 estimates by the 2008 population estimate. The outpatient visits, er visits, and hospital admissions are as reported by each hospital in the 2008 AHA/THA/TDSHS Annual Hospital Survey.
