Message:

Hays County is the fastest growing county in the US, yet the way we've been split up gives us little to no political "pull." We need for our county to be whole so that our Commissioners' Court can build a relationship with ONE senator & staff, for whom Hays County matters. We should be able to pick our senator. Not the other way around. Hays County has far more in common with Travis County than those further to our west & south. Please, help us. With our very rapid growth & lack of water, we will need a strong partnership with our electeds, & neither of these map gives us that.
