Message:

After studying the workings of the committee for Redistricting of the state of Texas, it has occurred to me that nothing has changed over the years...that officials intrusted with the important work of serving the citizens of their districts have been unduly pushed or placed into areas where officials will not be responsible for the needs of such citizens. It would appear that such representatives have ignored the findings of the 2020 Census and have been partially or entirely disregarded!

I humbly request that you restudy the results you have come up with, putting the needs and desires of the citizens in your districts first and not those of your own political desires.

Texas has had a history of disregarding the needs of its minority citizens for long enough! In these particularly difficult times of Covid-19, natural weather disasters and the inability of electrical resources, please reconsider the results of your initial redistricting and do the right thing. It is time that all citizens in all districts be given the proper consideration.

Thank you for listening to my thoughts.

Sincerely,
Kathleen Freeman
