Affirm public info: I agree

Regarding: Senate

Message:

The proposed drawing for State Senate District 17 does not accurately reflect the population and interests of the people who live in the area. One of our greatest concerns in this area is flooding and infrastructure related to building on floodplains and flood management. It is my belief that the watershed areas , reservoirs should be in one district. The citizens in the northern part of this district have very little in common or common interest with those in the coastal communities (which are included in this proposed district drawing.

respectfully submitted,
Kitty Kenyon
