Message:

Please make sure that you are adequately representing the voters and representation in Texas by drawing your redistricting maps correctly and fairly. Make sure you are not giving any unfair advantages to Democrats, which is the entire historical purpose of gerrymandering. Please draw the lines where they should be, by area, considering county choices of the voters, and do not dilute the deliberate geographical choices of the individual. People deliberately move to a county to avoid another. Do not start lumping them back where they don't want to be, with representatives they don't want.
